HoopsPass Allocation and Complimentary Ticket Policy

Document HP-POL-07 · Version 1.0 · Effective 4 August 2025 · Owner: Partnerships

1. Allocation

1.1 For every game, the home team gives HoopsPass an allocation: a fixed number of seats that HoopsPass may sell (allocated_seats). The rest of the arena is sold by the team directly or by other partners.

1.2 The allocation is set per game and per price tier, before single-game tickets go on sale.

2. Sell-through

2.1 Sell-through rate = primary tickets sold / allocated seats, computed per game first and then summed over the games in scope.

2.2 Primary tickets are tickets inside the allocation: single-game, group and season-package tickets. Resale tickets are outside the allocation and never count. Complimentary tickets are not sold and never count.

2.3 Never divide by arena capacity. Capacity is the whole arena; HoopsPass only sells its allocation.

2.4 Target: 85% sell-through for the regular season. Teams below 75% after the first 20 home games are reviewed with the team's ticketing office.

3. Complimentary tickets (comps)

3.1 Comps are free tickets issued to sponsors, community programs, players' families and media. They are recorded with ticket type COMP and a ticket price of 0.

3.2 The comp budget is 1.2% of the allocation for regular-season games and 0.5% for play-in and playoff games.

3.3 Comps are not sales. They are excluded from tickets sold, GMV, net revenue, average ticket price and the no-show rate.

3.4 Comp requests above the budget need approval from the home team and the HoopsPass Head of Partnerships.
